## Welcome to Coastal Currents 2023

We have no public funding this year so the Festival is entirely created out of local sponsors, supporters and goodwill.

The biggest of thanks to the following organisations for continually and unwaveringly supporting us, so we can keep this vibrant and crucial festival alive.

THANK YOU to

Love Hastings  
blackShed Gallery  
Sussex Coast College  
Battle Abbey School

Without whom the Festival would not be possible.

We are passionate about the culture on this coast and the creativity that is in abundance, so we continue to wrap it in this lovely brochure for you to help celebrate the uniqueness right here. Go visit a studio, purchase a piece of work, commission something - get involved and support your local creative economy.

For many reasons, 2023 has been harder to make happen than any other year, but I'm proud we did it, for how long, who knows, without more significant support, as this is now my 12th Coastal Currents, but for now let's just bathe in the art, here and now which is truly glorious.

Bexhill on Sea**

**Open 10am-6pm throughout September**

Sound installation in Shelter number 3.  
Take a seat in the shelter, look out to the sea  
and listen. “in your shell-like” is a site specific  
poem. It considers erosion of the landscape along  
the coast and the erosion of our own bodies;  
combining chance encounter, sensory experience,  
and performance. The sound is activated when you  
sit on the benches. Join Pat Jamieson and Carol  
Laidler for a writing workshop-“a word in your

Memorial, on Wednesday 6th of September,

Smith from the 'Brighton School' shows two children tending to a sick kitten; the starting point for a new series of original art of cats and kittens made by Montague Armstrong of 15 Kings Road. Original monoprints, bold and vibrant, made in an experimental process based on etching and using imagery in the spirit of a golden age of family matinees, inspired by film posters and creative expressions of children's cinema during the Soviet era.

# Uncertain

Gallery Open daily Sept 28 – Oct 1, 12-6

Private View Friday Sept 29, 6-9

Performance and Poetry Saturday Sept 30, 3

Workshop Sunday Oct 1, 12

Uncertain Edges is the latest endeavour from GROUND COLLECTIVE. GROUND COLLECTIVE is made up of eight artists and a writer. For this project Jim Roseveare, artist and arboriculturist, is their invited collaborator.

Installed in Electro Studios, Uncertain Edges takes the gallery's location, sitting on the East Sussex shore, as its starting point to examine the blurred and wobbly lines that attempt to demarcate one space from another. A coastline whose cliffs crumble and diminish on the one hand whilst mudflats are reclaimed and extend with accumulations of silt, on the other. The works, performances and readings resonate viscerally with each other utilising earth, found objects, photography, words, movement, and paint to navigate shifting concepts of space, place and identity.

**Nam June Paik: Moon Is the Oldest TV**

Certification: 12, 2023, 107mins, Director: Amanda Kim

The awe-inspiring life and times of Nam June Paik, often referred to as the 'Godfather of Video Art', who foresaw the internet and meme culture's importance in the 1970s, and coined the phrase "Electronic Superhighway." Nam June Paik was one of the founding fathers of avant-garde art in the 20th century and arguably the most famous Korean contemporary artist. This film profiles his art and life, telling the story of Paik's meteoric rise in the New York art scene and his Nostradamus-like visions of a future in which "everybody will have his own TV channel."

## Penny Nice

Beach Hut 33, Glyne Gap, Bexhill, Off Bexhill Road, St Leonards on Sea, TN40 2JU

The colours of our coastline and surrounding countryside, as well as coastlines of more distant shores; continue to inspire me to paint. Watercolour, chalk pastels and acrylic are preferred medium. My family have owned a beach hut at Glyne Gap since 1962 and I love to paint from here, with light and colour forever changing.

Opening hours: 2/3 & 9/10 September 11am-6pm

*Come,  
Come upstairs,  
Brighter here,  
Breezed steps, far off ground,  
Scent of air, washed in the wind,  
See for miles,  
River, snaked,  
Flattened silver, glowing,  
Come,  
Come upstairs  
But mind the last few steps,  
They're still growing.*

I collect objects from nature  
& the detritus of man.  
I see them as being 'found',  
as if they were lost,  
waiting patiently for me  
to happen upon them

I re-imagine their reality

2/3 & 9/10 September  
11:00 - 18:00
